SUMMARY

Motivated Graduate Student skilled at integrating diverse educational and work experience in Information Technology Service Management (ITSM) ticketing systems, technical troubleshooting, security operations, network threat modeling, project management, and AI powered solutions. Committed to bridging the gap between emerging AI technologies and security controls. Seeking an entry-level position while pursuing a Master of Science in Technology Management at the University of Illinois Urbana-Champaign.

SKILLS AND QUALIFICATIONS

CompTia Security+ Certification	TryHackMe Labs & Projects Ongoing	Generative AI Concepts & Solutions
TryHackMe CompTia PenTest+ Certificate	Network Security & Risk Assessment	Data Analysis & Fraud Detection
Anthropic AI Fluency Certificate	TCM Security Ethical Hacking & Linux	Cryptography & Encryption
AI Ethics Certificate	Cybersecurity & Project Management	ITSM & Technology Integration

PROFESSIONAL EXPERIENCE

Technology Solutions Analyst and Basketball Trainer | *UnderDawgs LLC, Sycamore, IL* May 2023 - Present

- Monitored and analyzed network traffic and security alerts, enforcing least-privilege security principals.
- Designed brand logo and marketing materials using Adobe Suite and other graphic design software.
- Improved multimedia content, including images, infographics, videos, and interactive content.
- Built successful interactive social media strategy achieving 30% engagement increase.
- Proactively reduced vulnerabilities by scanning and configuring firewall rules and network systems.
- Coordinated diverse schedule demands, maintaining high performance to commitments.

Information Technology Services Student Worker | *Aurora University, Aurora, IL* August 2025 - May 2026

- Configured and implemented security systems protecting 1,200 endpoints across campus devices.
- Built proficiency in Linux through 50+ hours of hands-on practice and system configuration.
- Provided technical support and solutions to over 6,000 students and staff to minimize academic disruptions.
- Assisted users with account recovery, password resets, and account management tasks resolving 180+ issues.
- Conducted maintenance of campus technology infrastructure and computer equipment.
- Performed diagnostics and preventative maintenance on university owned workstations and software.
- Resolved 30+ weekly service desk tickets, earning consistent end-user satisfaction via ITSM ticketing systems.

Fraud Analyst Intern | *Trace Forensic Experts LLC, Chicago, IL* June 2024 - December 2024

- Analyzed bank transaction data, flagging over 500 suspicious patterns for review using data mining and SQL queries.
- Completed 100+ hours identifying accounting irregularities and identifying financial fraud.
- Assisted with compiling, analyzing, and documenting over 2,000 transactions to uncover fraudulent activities.
- Presented fraud findings to team leadership, translating data into clear evidence for legal proceedings.
- Documented investigation findings and evidence ensuring all team members had access to key case metrics.

EDUCATION

Master of Science in Management | *University of Illinois Urbana-Champaign, Champaign, IL* In progress

Bachelor of Science in Cybersecurity, Minor in Computer Science | *Aurora University, Aurora, IL*
